I have worked in Factual Entertainment and Observational Documentaries for 18 years. In that time my responsibilities have included setting up events, casting, self-shooting, producing, edit producing and directing. I thoroughly enjoy working in this fast paced and exciting industry and I am always willing to commit 100% in return for career development. I have very good social skills and consider myself very easy to work with. I always enjoy meeting and working with new people. My main aim is to become a well-established and trustworthy Series Director and Series Editor.
