

## MARK McQUEEN - DIRECTOR

CONTACT: mark@markmcqueen.co.uk  
SHOWREELS: www.markmcqueen.co.uk

I am a very experienced BAFTA nominated director and series director of many shows such as Top Gear, Dynamo Magician Impossible, Gadget Man, Gareth Malone's Naked Choir and Made In Chelsea to name a few. I have worked with numerous high profile on screen talent such as Matt LeBlanc, Jonathan Ross, Jeremy Clarkson, Richard Hammond, Stephen Fry, Chris Evans, Konnie Huq and Steve Jones, forming close relationships beyond the project with a number of them. My experience across all genres including feature film, factual, documentary, entertainment, reality and drama makes me fully adaptable and knowledgeable on a very broad range of shows. I am very skilled in the edit and have thousands of hours of edit experience, either working with an editor, producing and directing the edit, but also often self editing whether that be a feature on Top Gear or a full episode of Gadget Man or hour long documentaries and other programs. I have also edited drama/film, music videos and commercials and all of my own showreels. I work closely with commissioners and execs and regularly take shows right through to the online, grade, mix and final viewings having input not only from the creative side but also editorial. I also operate all high end cameras to a very high level (Alexa, Amira, Reds, F55, etc) and also can light creatively and quickly to the same standard as an experienced DOP. Additionally, I have a high end Avid setup at home that has been used on multiple projects and full shows, recently editing a Netflix series from it.
