BIOGRAPHY

With over ten years experience in the film, TV and media industry, I have a strong command of the production process from initial idea to final delivery. Confident leading a team, developing, scripting, directing (on location and remote), editing and producing: narrative, sketches, drama, comedy, documentary, mockumentary and online content. Comfortable working with new and established talent, influencers, members of the public, children and animals.

My films have played at festivals around the world, winning awards for their writing, acting, direction and production. Most recently 'Other' was a finalist in the No Sleep Til Film Fest competition run by AGBO Films, the Russo Brothers' production company. 'The Callback' is currently on the festival circuit and I am also developing a number of projects including my debut feature film.

In 2020 I set up the production company Magic Eye Vision Ltd which produces commercial and branded content for social media, apps and other digital platforms. Past and current clients include Amazon, Costa Coffee, Ellesse, Heineken, Intersport, Panasonic, Peugeot and Sony. I am also a mentor on the Good Nugget mentorship program, helping young people get started in the industry.
