Director of TV, TVC's, Music Promos, Documentaries and Brand Content

- I've spent the past 16 years working across the industry on projects ranging from big budget features to TV via smaller scale documentaries, music videos, TV commercials and brand content. I have worked for Universal, Disney, Warner Brothers and 20th Century Fox, ITV, BBC, and have filmed all over the world.
- Experienced in drama, commercial, fact-ent, music, obs doc as well as many other genre's.
- I am an experienced self shooter (with an extensive shooting kit (see below)) but also equally experienced with larger crews shooting multi-camera / multi unit shoots, with cast and crews up to 80+.
- I am very experienced at working with talent from sensitive contributors who have never been in front of a camera before all the way up to Hollywood A-listers, politicians and everyone in between.
- I am equally as good in post production - directing and edit producing as well as being an accomplished editor, colourist and animator.
