I'm an accomplished director and writer, known for my BAFTA longlisted short film *WanderLand* (2023), now in development as a feature with Old Hall Films and Genera Films. My previous works include *Kaleidoscope*, nominated for the DirectorsUK Directors Award (2019), and the award-winning shorts *Powerless* and *Asphyxiate*.

Currently, my films *Progeny* and *2k5* are making waves on the festival circuit, including BIFA-qualifying festivals. As a mentee in the DirectorsUK Inspire Scheme (2024-2025), I'm being mentored by Jim Loach, with whom I shadowed on Sky Drama's *Flight 103*.

In addition to developing four feature films, I write novels under the pen name Charlotte Bedgood. I'm also an associate member of DirectorsUK and a member of the Cinesisters collective.

I also started a production company in 2016 called Sonder Pictures, which was renamed as Gleu Films in 2024.
