

PROFILE

I am currently due to start shadowing Rachel Leiterman on the period drama The Buccaneers - Season 2 for Apple TV as part of the ScreenNETS Director's Programme.

In early 2024 I successfully completed my first block of River City, a continuing drama for BBC1 Scotland. Shortly after I took my first trip to the Yorkshire Dales where I successfully completed my first block of ITVs award winning continuing drama Emmerdale.

Last Year, I received the Prince William Bursary from BAFTA, which I used to complete two courses:

I completed the John Yorke - Story for Screenwriting: Advanced Structure course, so I could have better knowledge of how to craft a story and have constructive input during pre-production. I also completed the Introduction to Acting for Camera at the RCS, so I could experience what it's like to be directed. Being in the position of the actor has helped me understand what actors experience and I have developed a deep empathy towards them and the process they go through to make a scene come alive.

With my AD background, I love being thrown in the deep end and thrive under pressure, this has given me a great understanding of the on-set environment. I am capable of dealing with any issues that may arise and take major changes in my stride. I will always go above and beyond on any project.
