## PERSONAL STATEMENT

I'm a BBC-trained multi-camera director, with expertise across a wide range of productions, from large-scale events, competitions and studio shows to intimate performances and live streams for digital platforms. With 25 years of diverse production experience, I bring a rare and invaluable skill set to the table. A former script supervisor, I spent years in the fast-paced gallery environment and this unique foundation has given me the ability to thrive under pressure and has cultivated a deep understanding of multi-camera productions. A classically trained musician, I have a natural affinity for capturing music across all genres, from scripted classical concerts to as directed music gigs. I pride myself on connecting with people from all walks of life and always aim to foster a collaborative and friendly atmosphere. I establish good relationships and communication with everyone across the production and have worked with a wide range of contributors from high profile talent to young, inexperienced performers.
