## FILMMAKER

Tom developed his filmmaking skills through hands-on initiative. His dedication to sourcing outstanding scripts from talented writers via his own screenplay competition attracted strong collaborators for his early zero-budget films and facilitated a distinct, guerilla, ground-up understanding of every aspect of production.

His work quickly earned international festival recognition ('Semi-Finalist' at *Rhode Island International Film Festival* & 'Best Film' Award at *Golden Knight Malta*) leading to further commissions and global distribution.

His professional acting background (*Guildhall School of Music and Drama*) provides an invaluable foundation for confidently leading large ensembles, fostering outstanding performances from both cast and crew. This commitment to the highest artistic standards continues to guide his directing.

Now co-founder of *Big Wood Productions*, Tom is focused on developing and directing narrative comedy and drama for HETV and film, and continues to strive for bold, thrilling, ambitious storytelling, whatever the budget.
