In these cases, points will be allocated at a rate of 10 points per work per year for any number of licences in the UK, 5 points per work per year for a licence outside of the UK. Where producers are able to supply gross receipts for DVD sales then a conversion rate of £8.84 per unit will be applied.

ii) DVD 'Giveaway' with a national newspaper **1 point**

DISTRIBUTION OF ERA PAYMENTS

Payments received from the Educational Recording Agency for the educational recording of members' work will be added to the annual Supplementary UK Distribution. This distribution normally takes place in July.

The ERA payments to be included in the distribution will be those received in the previous calendar year.

86:10:4 SPLIT

A cap is placed each year on the amount of money available per secondary use (Sales, TX and DVD sales). This is in order to ensure that any changes made to points values for a specific secondary use from one year to the next do not disproportionately or adversely affect the payments for the other two remaining secondary uses. The level of the cap is reviewed regularly by the Distribution Committee. The current cap, applicable to reports received after July 2018, is 86% to sales, 10% transmissions, 4% DVD sales. In practice this means that payments are therefore currently allocated annually on the basis that, in any one year, 86% of the payments distributed will be due for sales, 10% for transmissions and 4% for DVD sales.
